

Lato

Lato Aluminum skirting is the most preferred skirting board among our portfolio. It is distinguished from standard skirting board by the value it gives to the applied area, and being easy to apply.

Lato Aluminum skirting will be a distinctive detail in your office and home and all other living areas.

With the 8, 10 and 12 cm height alternatives, Lato Aluminum skirting is also designed to hide your cables by serving as an aluminum cable duct which saves you from using a second piece.

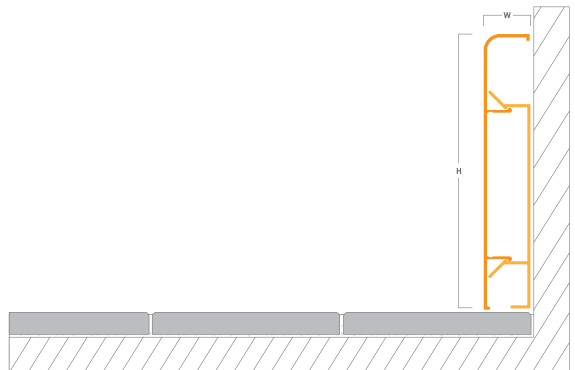

Our design of Lato Aluminum skirting has the skirting corner turning apparatus which eliminates all of the problems caused by the inner and outer corner turnings.
