

MonoFix

Mono Fix Aluminium Straight Edge profile is an Aluminum tile edge profile used for protective and decorative purposes at the edges of ceramic or granite surfaces.

It does not only cover the faults that may occur during the cutting and edging processes on the ceramic surfaces, but also completes the decoration with the glamorous effect of aluminum.

Application areas

- Edges of the ceramic surfaces
- On the top of ceramic or granite skirting boards – Horizontally
- On the ceramics-carpet or ceramic-parquet passages
- As a decorative strip instead of a joint between ceramic tiles on floor
