

Scala-R

The Scala R Aluminium Non-Slip Stair Nose Profile is used to prevent from getting slippery of the stair noses of the stairs placed in heavy used public areas with the application of non-slippery pvc tape

Scala R Aluminium Non-Slip Stair Nose Profile provides a structure that has resistance to the problems such as getting abraded and slippery over time due to its strong and heavy structure, which ensures trouble-free installation of all kinds of step materials.

The Scala R Aluminium non-slip Stair Nose Profile, which is applied in a stable manner with anti-slip bands, screws or adhesive tapes, protects the look of the stairwells from the pressure and bumps while providing a stylish appearance in areas such as shopping malls, hospitals, stores.
