

# SquareFix

Square Fix Aluminum external corner tile trim gives a decorative look to the 90 degree corners by covering the flaws may occur during the application of ceramic on the outer edges of the surfaces. Square Fix Aluminum tile trim helps to prevent abrasions and fractions on the corners of ceramic surfaces by providing extra strength against impacts and damages.

Corner Fix, which is made for Square Fix Aluminum external corner tile trim, gives an opportunity to apply it in both to the outer and inner corner joints easily while providing a unique integrity by furnishing the profile combination.

## Application areas

- Ceramic surfaces of all kinds of 90-degree outer corner applications
- On the top of ceramic or granite skirting boards – Horizontally
- Curves or edges of the ceramic countertop
- Corners of ceramic-coated steps
- As an edge profile with natural stone, granite and ceramics

## Square CornerFix

You get great results with the Aluminum Tile trims inner-outer corner cut and profile joints thanks to our CornerFix series as we can offer you the same color with your products.
