

Transt

The Transt Aluminum T-Floor Dividing & Cover Strip Profile gives a stylish and an aesthetic look to your places by covering the gaps between the bathrooms and kitchen floorings.

Transt, used as a transition profile at the places where two different type of floor coverings have been jointed, also covers the gaps between floor coverings as well as hiding the damaged parts.

The Transt Aluminum T-Floor Dividing & Cover Strip Profile with a wide range of color and design options, which makes suitable it for any kind of furniture and materials, is frequently preferred as a complementary with the design of modern bathroom and kitchen decorations.
